

Our history

C&W Transportation was founded in the early 1980s, providing trucking services to customers in Colorado and Wyoming. In the early stages, C&W identified the need for overnight dedicated distribution, which at the time was a relatively new concept. Today, overnight shipping with 6:00 a.m. delivery is C&W's primary business.

Over the years, C&W has expanded services across the Rocky Mountain region, and increased services to hard-to-reach areas in mountain communities.

Our values

C&W Transportation has built strong, lasting and loyal relationships with satisfied customers since our inception in the 1980s. Our rates are fair and competitive, and we pride ourselves on stellar customer service, and providing honest and professional service, with unmatched on-time service-level guarantees.

Working with C&W

When you begin working with C&W Transportation, your quote will be handled by our sales manager, and once your contract is in place, you will be transferred to our dedicated operations team.

Our onboarding process will ensure that our team knows what is expected, what our delivery guarantees are, and how the deliveries will be handled. Our toll-free hotline is available 24 hours a day, so that you are never out of touch.

**Dedicated contract carrier
specializing in nighttime
key-stop distribution**

www.cwtransport.com

C&W Transportation is headquartered in Fort Collins, Colorado providing truckload (TL) and less-than-truckload (LTL) distribution services in the Rocky Mountain region. We specialize in overnight key-stop routes with guaranteed 6:00 a.m. delivery.

Just-in-time service

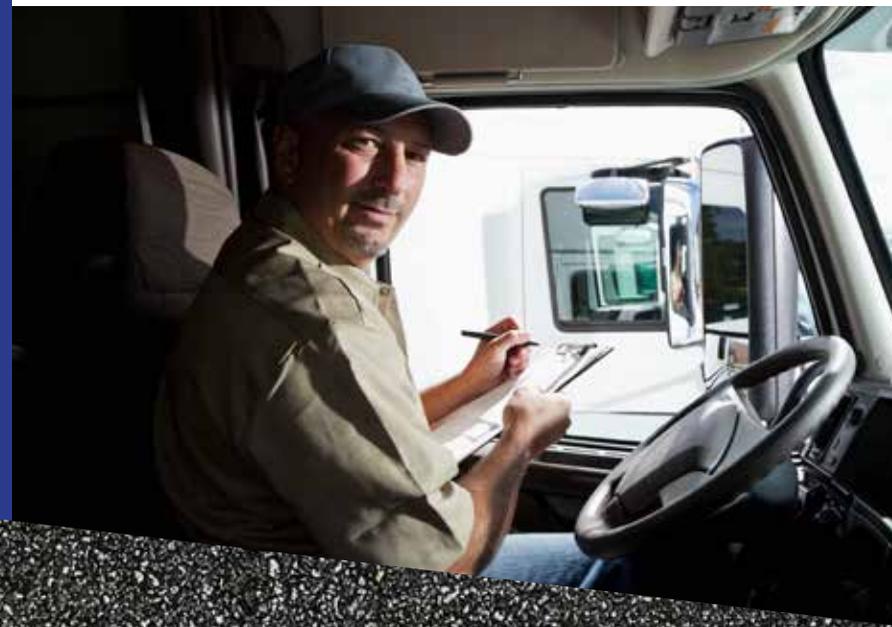

C&W's just-in-time distribution model allows customers to fill orders throughout the day. Your shipment will be delivered overnight with your product in-hand by 6:00 the next morning.

Safety and technology

C&W utilizes the latest in Fleetmatics electronic logging devices (ELDs) to track our drivers and their driving logs. We insist that all drivers are compliant with industry regulations for the safety of themselves, their cargo, and other drivers.

C&W only hires drivers with at least two years' experience and with all licensing requirements and background checks completed.

We are proud of our 99% on-time delivery ranking, which is consistently higher than the industry average. Likewise, our OS&D (over, shortage and damage) rate is less than 1%.

Our services

Dedicated key-stop delivery service

C&W Transportation's dedicated routes provide truckload (TL) and less-than-truckload (LTL) deliveries, specializing in overnight dry van distribution with guaranteed 6:00 a.m. delivery. Customers can maintain lean inventory levels and place orders throughout the day, knowing their product will arrive first thing in the morning.

Drivers can make unattended deliveries, as well as unload and place orders in your warehouse exactly where you want them. Our trucks run directly from your warehouse to your location, store or outlet, including satellite branches. This eliminates central terminals or dock transfers, and the risk of damaged and lost freight.

LTL deliveries

If you need smaller freight (less-than-truckload) picked up from multiple locations and/or delivered to multiple points, C&W can create customized delivery services to meet your needs.

Line haul and last-mile deliveries

C&W will provide both line haul and custom last mile routes, depending on your needs. Since we require no physical warehouses or terminals of our own, all cross-docking is done at your location, maintaining efficiency and keeping costs down.

Special services
